

Events across categories

Theoretical and experimental approaches to event structure

Wednesday, May 27, 2009

9.00-9.30 Reception and introduction

I) Events in the verbal domain

9.30-10.30 **Gillian Ramchand** (CASTL, U. Tromsø)

Events and predication

10.30-10.35 Short break

10.35-11.35 **Christopher Piñón** (Université de Lille 3)

Aspect, events, and degrees

11.35-12.05 Coffee break

12.05-13.05 Commentary by **Violeta Demonte** and **Olga Fernández Soriano**
(CSIC-CCHS and Universidad Autónoma de Madrid)

13.05-13.10 Short break

II) The complexity of event structure

13.10-14.10 **Susan Rothstein** (Bar-Ilan University)

The semantics of telicity

14.10-16.10 Lunch

16.10-17.10 **John Beavers** (University of Texas at Austin).

Aspectual classes and scales of change

17.10-17.15 Short break

17.15-18.15 Commentary by **María Luisa Rivero** (University of Ottawa and Royal Society of Canada)

Thursday, May 28, 2009

III) Events in non-verbal domains

9.00-10.00 **Andrew Koontz-Garboden** (University of Manchester)

Derived statives

10.00-10.05 Short break

10.05 -11.05 **Louise McNally** and **Rafael Marín** (Universidad Pompeu Fabra and CNRS-U. Lille 3)

From psychological verbs to nouns

11.05-11.30 Coffee break

11.30-12.30 Commentary by **Jaume Mateu** (Universitat Autònoma de Barcelona)

12.30-12.35 Short break

IV) Event structure and acquisition and processing

12.35-13.35 **Liina Pylkkänen** (New York University)

Event coercion in brain and development

13.35-13.40 Short break

13.40-14.40 **William Snyder** (University of Connecticut)

Motion predicates and the compounding parameter: Evidence from acquisition

14.40-16.40 Lunch (with coffee before the lecture)

16.45-17.45 Commentary by **Yosef Grodzinsky** (McGill University)
